Professional Summary

Dynamic and ambitious Front-End Developer with 3+ years of experience in designing, building, and optimizing web applications. Specialized in React.js and the modern JavaScript ecosystem. Adept at transforming creative ideas into functional, visually stunning, and performance-driven websites. Skilled at leading small teams, mentoring junior developers, and contributing to open-source communities. Passionate about continuous learning and eager to make meaningful contributions in innovative organizations.

Technical Expertise

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Context API, Tailwind CSS, Material UI, Bootstrap, Styled Components, Framer Motion

Backend: Node.js, Express.js, REST APIs, GraphQL, MongoDB, Firebase, PostgreSQL

DevOps & Workflow: Git, GitHub, GitLab, Docker, CI/CD pipelines, Agile & Scrum, Jira, Webpack, Vite, Figma

Other Skills: UI/UX Design, Accessibility (WCAG), SEO Optimization, Website Performance Auditing, Testing (Jest, React Testing Library, Cypress)

Projects

Nike Shoes E-Commerce Website – React, Tailwind CSS, Redux

Developed a fully responsive e-commerce platform with product filtering, shopping cart, and checkout features. Increased conversion rate by 30% after redesign.

Modern Banking Website – React, Tailwind CSS, Next.js

Created a modern digital banking platform with accessibility-first design and smooth animations. Improved page load time by 40%.

Portfolio Website – Next.js, TypeScript, Tailwind CSS

Designed and developed a personal portfolio with blogs, case studies, and integrated email API. Attracted freelance clients worldwide.

Task Management App (Trello Clone) – React, Redux, Firebase

Built a collaborative task management app with drag-and-drop features, real-time sync, and user authentication. Reached 500+ active users.

Work Experience

Front-End Developer (Internship) – Sanandaj Science and Technology Park (2023)

- Collaborated with a small team to design and deploy responsive websites for local startups.
- Improved website performance by 35% using React best practices.
- Implemented Agile methodologies and participated in daily stand-ups.

Freelance Front-End Developer – Remote Projects (2022–Present)

- Designed custom landing pages, dashboards, and e-commerce stores.
- Delivered 10+ successful freelance projects to international clients.
- Increased client websites' Google PageSpeed scores from 60 to 95+.

Open Source Contributor

- Contributed to React and Tailwind UI component libraries.
- Active participant in GitHub projects with 100+ stars.
- Provided bug fixes and documentation improvements.

Awards & Competitions

- Winner – Regional Hackathon 2024 (Built a startup MVP in 48 hours).
- Finalist – International Web Development Competition 2023.
- Recognized for Best UI/UX Design in a local tech challenge.

Achievements

- Ranked top 5% globally in JavaScript coding challenge (HackerRank).
- Improved web app performance by up to 60% for freelance clients.
- Built 12+ production-ready applications, including e-commerce and dashboards.
- Mentored junior developers through online coding communities.

Certifications & Training

- Self-Taught Course (1 year, YouTube)
- Responsive Web Design – FreeCodeCamp
- JavaScript Algorithms and Data Structures – FreeCodeCamp
- React Developer Certification – Udemy
- Advanced TypeScript Mastery – Coursera
- Node.js & Express Full Course – Udemy

Community Involvement

- Active member of StackOverflow (100+ answers).
- Contributor to open-source GitHub repositories.
- Engaged in local web development meetups and coding bootcamps.
- Regularly publish blogs on React.js and UI/UX design trends.

Education

Bachelor's Degree – Islamic Azad University of Sanandaj

Languages

- English: Advanced (Fluent in technical communication)
- Persian: Native
- Kurdish: Native

Soft Skills

- Problem-Solving & Critical Thinking
- Strong Communication Skills
- Leadership & Teamwork
- Adaptability & Continuous Learning
- Time Management & Task Prioritization

Future Goals

Aiming to become a senior front-end developer specializing in building scalable enterprise applications and contributing to large-scale open-source projects. Long-term goal is to lead a development team and design innovative digital products that positively impact millions of users worldwide.
